

I've set a date for the next *Monster Maps and More* seminar. I will run it here on North Padre Island on June 28. The seminar focuses on a book in which I've documented the exact locations where I've caught hundreds of trout measuring 27 inches or longer throughout the Laguna Madre/Baffin Bay system. I built the 8 1/2" x 11" book using Google Earth images overlaid with jpegs, gps data and text. In the meeting, I summarize all parts of the book and make sure the participants understand how best to use it. Cost of the four-hour seminar is \$500, and includes a copy of the book, with all recent updates.

Additionally, I'm interested in running a different seminar series in July and/or August. The concept of these meetings will be based on the title *Big Lessons*. I will create a booklet documenting the locations where I and my clients have caught some of the biggest trout of my career. Only fish measuring at least 30 inches and/or 9 pounds will be included.

I'll describe the features of the locations, weather scenarios, lures used, and any other pertinent factors. All with the goal of generating a list of lessons taken away from the catch. Cost for this three-hour seminar will be \$175. I will take a \$75 non-refundable deposit to hold a seat, and will collect the remaining \$100 on the day of the meeting.

Tentatively, I'm considering Saturday, July 19, August 2 and August 9 as dates. Locations will be determined according to who shows interest. I'd like to hold a meeting in San Antonio (or Austin), Houston and North Padre, if I can get enough commitments to justify doing so.

If interested in attending either of these seminars, email me at [kevxl8@mygrande.net](mailto:kevxl8@mygrande.net) or call 361 688 3714.
